IT’S BECOMING INCREASINGLY IMPORTANT

On average 181 vendors access an organization’s networks – every week
(source: Bomgar)

MORE THAN
56% of breaches are linked to a third party
(Source: Ponemon Opus 2017 Third Party Data Risk Study)

70% believe the cost of failing to effectively evaluate third parties is
$13,000,000
(Source: Ponemon)
BUT INCREASINGLY DIFFICULT

Third parties are inundated with 15,000+ hours spent on assessments each year.

Enterprises are not getting insights. 54% say data is only somewhat valuable, and fewer than 8% of assessments result in action.
THE ONLY Viable OPTION IS AN EXCHANGE

Cost-Efficient and Thorough
• A solution for both sides
• Scales with your needs
• Share The Cost of Assessments with other Customers
