To whom it may concern

Subject: PTAC and OEDIT

Accentz, Inc is an engineering and technology solutions company. Accentz, Inc is a SBA certified 8(a) economically disadvantaged, woman owned company. It is also certified by city and county of Denver as a MBE, WBE, SBE, and ACDBE company.

PTAC

PTAC is an amazing organization that has helped us grow our business.

People that work here are genuine and caring. They want to support small business growth.

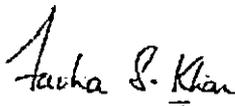

We had personal experiences and interactions with Kathryn Lobdell, Dennis Casey, Bob Brown, and Tom Thompson, who encouraged and provided us the knowledge and tools to survive in this capitalistic economy. They made time for us every time we needed mentoring. Kathryn Lobell our direct contact makes time to guide us every time we need help with anything.

As a small business with no resources we could not have sustained our growth without the free services and advice from PTAC. We developed our federal government business mainly because of the insight, and training from PTAC that showed us how to do business with the federal government. They gave us the dos and don'ts.

PTAC introduced us to small business directors and diversity managers in federal agencies. By attending their monthly meetings, we were able to build relationships with various federal agencies such as PAFB, SAFB, USAFA, and other agencies. Without this introduction and help to write proposals, we would not have been able to even win sales for our company.

We were able to get free sales training to understand how to build sales and grow our business. We received assistance to write proposals. They mentored us when we ran into problems on our projects. We can tell so many stories where without PTAC we would not know how to deal with problems that small business and minorities face in their day to day routine.

OEDIT has helped us in exporting products. As a small business we needed this resource to help grow our business. They also help in making it possible for us to attend events and conferences where we can connect with people who can help us succeed through building relationships with key people from different organizations.
