

## Prohibit Multi-burst Trigger Activators

I am Holly Murtaugh from Senate District 34 and I am in support of SB18-051. This is a chance to strengthen a law that has a loop hole for bump stocks. Let's close that loop hole. Now is the time. People have marched on the Capitol steps, walked-out of Colorado schools, and walked into your hearing rooms, all to get your attention for policy change. This is your chance to take a SMALL step to strengthen a law that already addresses "dangerous weapons." And I do stress small step; much change is needed, but this is a start. Enough stalling here in Colorado, let this bill at least see the light of day in the full Senate, don't shy away from the conversation and kill it here in committee.

## Repeal Ammunition Magazine Prohibition

I'm Holly Murtaugh from Senate District 34. I am opposed to SB18-052 and so are the hundreds of students who marched here last Wednesday, chanting "hey, hey, ho, ho, gun violence has got to go." It's time to strengthen our existing gun laws, not loosen them.
