Dear Representative Roberts:

Pursuant to House Rule 50, the Capital Development Committee (CDC) reviews and makes advisory recommendations on legislation that concerns capital construction, controlled maintenance, or proposals to acquire capital assets. On April 29, 2021, the CDC reviewed and recommends House Bill 21-1274 to the House Business Affairs and Labor Committee, with the recommendation that the committee adopt an amendment to require CDC approval instead of CDC review, and an amendment to require that any necessary appropriations be requested through the annual long bill, not through the supplemental appropriations process. The motion to recommend the legislation passed on a vote of 6-0.

If you have any questions or concerns, please call Bo Pogue, Legislative Council Staff, at 303-866-5390.

Sincerely,

A handwritten signature in black ink that reads "Edie Hooton".
