Jo Feder For League of Women Voters of Colorado	As a member of the League of Women Voters of Colorado's Legislative Action Committee, Housing, I wish to testify in Support of HB21-1274. The League supports all approaches to provide a decent home and living environment for every family. Colorado suffers from a lack of affordable, decent housing. This bill requiring the department of personnel to create and maintain an inventory of unused state-owned real property and determine if the real property identified is suitable for construction of affordable housing fits in the League's position of creating affordable, decent housing. Thank you for your support of this bill
