HB22-1238 Elected Officials Approve Epidemic Duties
Typed Text of Testimony Submitted

Name, Position, Representing	Typed Text of Testimony
Jane Muhlenbruch-Yee For Self	<p>I urge our Colorado House and Senate to pass HB22-1238 because during the Covid pandemic we have seen repeated misuse of emergency powers by elected and unelected public officials across Colorado and America.</p> <p>I've seen the abuse of power in the form of mask and vaccine mandates and partial or full closures of businesses and schools. There was a clear picking of winners and losers when excessive pressure was placed against small businesses forcing closures, while large "Big Box" businesses and chain stores remained open and thrived.</p> <p>It's understandable that comprehension of what is happening is very dynamic in epidemics, but month after month after month of keeping emergency powers is excessive. Seeing "the science" used as a weapon against some as the CDC guidance regularly changed is unacceptable. Transparency and accountability is vital for all in positions of power, particularly when mandates are involved.</p> <p>When elected officials misuse these extra powers, the citizens of Colorado can take their grievances to them and if they feel they are not heard, work to insure they are not re-elected. When unelected officials misuse these powers, We the People, have no recourse. The people of Colorado need reasonable limits on emergency powers related to epidemics and health emergencies. This bill provides checks and balances that are desperately needed before a future epidemic occurs.</p> <p>For these reasons, this is why I urge our Colorado Representatives and Senators to pass HB22-1238.</p> <p>Jane Muhlenbruch-Yee Loveland, CO</p>
