

February 1, 2020

Dear Committee Members,

Teresa Cloud here again with TLC Kennel. You may remember me from last week when I sent out an e-mail to each of you with my concerns on HOUSE BILL 20-1084. Today I would like to share a little about our family kennel. My husband, Archie, is retired Air Force and all our children were born at the Air Force Academy.

Upon retirement we moved our family to eastern Colorado as we were desirous of a country lifestyle. The children went on to excel in school, 4-H and FFA. Robert, who was born with down syndrome, loved puppies, and so we decided to start a dog breeding kennel to fulfill a family dream of working with animals. Thus, TLC Kennel was founded. That was 38 years ago and in all those years since, Robert has been our dog whisperer and our puppy socializer and everything else in-between. He has always been there with a willing helping hand.

TLC Kennel has grown and exists today with the help of expert staff that share our values. TLC Kennel has not only fulfilled our family dreams but those of many others as we continue to provide loving faithful companions to Coloradoans and folks throughout the United States. With perfect USDA inspections, and not a single write up from PACFA, we are living proof that good large-scale kennels can and do exist. Once again, I urge you to vote no on HOUSE BILL 20-1084.

Sincerely,

Teresa Cloud

Little Lacy
