### Who is AAMVA?

The American Association of Motor Vehicle Administrators (AAMVA) is a tax-exempt, nonprofit organization developing model programs in motor vehicle administration, law enforcement and highway safety. The association also serves as an information clearinghouse in these areas, and acts as the international spokesman for these interests.

Founded in 1933, AAMVA represents the state and provincial officials in the United States and Canada who administer and enforce motor vehicle laws. AAMVA's programs encourage uniformity and reciprocity among the states and provinces. The association also serves as a liaison with other levels of government and the private sector. Its development and research activities provide guidelines for more effective public service. AAMVA's membership includes associations, organizations and businesses that share an interest in the association's goals.

AAMVA has **four regions** incorporated under its umbrella.

## APPENDIX C

### Model Salvage Vehicle Titling Legislation

#### Salvage, Rebuilt Salvage, Flood, and Nonrepairable Vehicles

##### Sec. 3- X01 Definitions

- (1) MOTOR VEHICLE -- as used in this Article, motor vehicle has the same meaning as found in Section 1-142 of this Code, however, it does not include vehicles with a GVWR of more than 10,000 pounds.
- (2) SALVAGE VEHICLE -- means:
  - (a) any motor vehicle which has been damaged, destroyed, wrecked, or submerged in water to the extent that the total estimated or actual cost of parts and labor to rebuild or reconstruct the vehicle to its pre-accident condition and for legal operation on the roads or highways exceeds 75 percent of the retail value of the vehicle prior to such damage, as set forth in a current edition of any nationally recognized compilation, including automated data bases, of retail values, as approved by the department. The value of repair parts for purposes of this paragraph shall be determined by using the current published retail cost of the original equipment manufacturer parts or the actual retail cost of the repair parts to be used in the repair. The labor cost of repairs for purposes of this paragraph shall be computed by using the hourly labor rate and time allocations that are reasonable and customary in the automobile repair industry in the community where the repairs are performed.
  - (b) any motor vehicle, without regard to whether such vehicle meets the preceding 75 percent threshold which :
    - (i) an insurance company acquires ownership of pursuant to a damage settlement, not including a settlement in connection with a recovered theft vehicle, unless such motor vehicle sustained sufficient damage to meet the 75 percent threshold ; or;
    - (ii) the vehicle owner designates as a Salvage Vehicle by obtaining a Salvage Title, without regard to the extent of the motor vehicle's damage and repairs.

1999 Toyota Camry

Stock#: 16490601  
Sale Document : CLEAR(Colorado) ←

Loss: COLLISION
